PROFILE

Enthusiastic Web Developer with 9+ months of hands-on experience in building responsive, cross-platform web applications using the MERN stack. Currently contributing to **Infoplay**, an interactive multimedia platform, where I'm developing new features and improving performance using Angular and .NET .

EDUCATION

B.E. Computer Science Engineering   2021 – 2025
Adani Institute of Infrastructure Engineering   Ahmedabad, India
CGPA - 8.9 / 10

PROFESSIONAL EXPERIENCE

Gantner India   01/2025 – present
Trainee Software Developer   Ahmedabad, India
- Developed a responsive web application to remotely configure real-time settings for large-format display screens, showcasing dynamic exhibition schedules, live ticket availability, booking trends, and pricing insights.
- Engineered QR-based remote login workflow to eliminate on-site intervention, allowing secure device configuration and dynamic device ID linking.
- Integrated RabbitMQ for real-time communication between admin portals and remote display devices, enabling instant updates and reliable message delivery.
- Built RESTful APIs in .NET and managed SQL database for users, device mapping, and settings.
- Built a dynamic, session-aware admin interface using Angular 19 and PrimeNG for QR upload, screen management, and seamless editing of previous settings and apply them using RabbitMq.

Adani Mundra Petrochemicals Ltd   04/2024 – 06/2024
PowerBI Intern   Ahmedabad, India
- Developed an automated Power BI dashboard to analyze and visualize Mundra Petrochemicals-IT budget data (2023–2027), streamlining insights and updates.
- Executed data preparation and modeling using Power BI Query Editor, ensuring efficient processing, clarity, and alignment with organizational objectives.

SKILLS

- **Programming Language**: JavaScript, Java, C++, Python, TypeScript
- **Frontend** : Angular.js, Angular, TailwindCSS
- **Backend** : Express.js, Node.js, .NET,
- **Database** : MongoDB, MySQL
- **Tools** : Git, Github, Postman, Docker, Atlas, Render

PROJECTS

Wanderlust - Book your hotel at ease 🔗
https://github.com/khushi747/Wanderlust
HTML, CSS, EJS, Javascript, Node.js, Express.js, MongoDB
- Developed a full-stack hotel review adding web application, enabling admins to list their places and authorised travelers to add review worldwide with an intuitive user interface.
- Engineered the frontend to deliver a seamless and responsive user experience.
- Implemented authorization for reviews and listings, used passport.js for authentication and developed a robust backend using Node.js and Express.js with MongoDB for efficient data storage, retrieval, and management.
- Deployed the full-stack application on Railway with MongoDB Atlas as the cloud-hosted database.
